Defining sustainability

UN Decade of Education for Sustainable Development:

……"*to integrate the principles, values and practices of sustainable development into all aspects of education and learning. This educational effort will encourage changes in behavior that will create a more sustainable future in terms of environmental integrity, economic viability and a just society for present and future generations*"

Change towards a better quality of life starts with education.

IF YOU

CAN'T CHANGE IT

CHANGE

the way

YOU THINK

ABOUT IT.

Mr JORDAAN HOTEL AMSTERDAM

Local canal water

or Eendenbier (Amsterdam slang, 'duck beer') is not something you'd want to drink. You'd be chewing on bike metal before you know it. Our tap water from the dunes along the Dutch coast however, is thirst quenching & yummy. It's the best, if you ask us. Feel free to fill this bottle up a 1.000 times. It's free!

Mr JORDAAN
His place, your home.
