

Green Nephrology

Information for Patients

- **What is Green Nephrology?**
- **Why is this important to kidney patients and carers?**
- **How can Green Nephrology help to improve patient care?**
- **What can kidney patients and carers do to make care more sustainable?**
- **What can KPAs do to support Green Nephrology?**
- **What can NKF and other charities do to support Green Nephrology?**
- **What are good examples of promoting sustainable care?**

To help you to answer some of these questions an information leaflet is available from the NKF Helpline or download at www.kidney.org.uk and [sustainablehealthcare.org.uk/green nephrology](http://sustainablehealthcare.org.uk/green-nephrology)

www.kidney.org.uk
