

Sustainable Respiratory
Medicine (COPD)
Summit 2012

Rachel Stancliffe

CENTRE *for* SUSTAINABLE HEALTHCARE

AIMS OF THE PROJECT

- Engaging key stakeholders
- Creating a framework for sustainable respiratory medicine
- Researching the carbon footprint of elements of COPD
- Fostering links with clinical groups and academic institutions for research
- Developing an open network for sharing resources and best practice

KEY STAKEHOLDERS

- Patients
- Healthcare professionals in community, primary and secondary care
- Commissioners
- Policy makers
- Industry
- Researchers

FRAMEWORK

Creating a framework for sustainable respiratory medicine, with a focus on chronic obstructive pulmonary disease (COPD), with buy-in from the stakeholders

RESEARCH

Researching the carbon footprint of various elements of the COPD service line as represented in accepted care pathways.

RESEARCH

Fostering links with clinical groups and academic institutions for research

NETWORK

Developing an open network for sharing resources and best practice in COPD, with representation from healthcare providers throughout the UK

OUTPUTS OF THIS PROJECT

- A report on the baseline footprint of some existing COPD services or care pathways
- A Summit meeting of leaders in COPD and Sustainable Development – **that's us today!**
- A framework for sustainable service line commissioning in COPD
- Academic papers published (or ready for publication)
- A network established for respiratory medicine patients and practitioners

COPD CARE FOR THE 21ST CENTURY

- High Quality
- Affordable
- Environmentally Sustainable
